

## How to go to Second life and create your own avatar<sup>1</sup>

1. Go to <http://secondlife.com/>
2. Click on the orange tag "Get Started, membership is free!"
3. You'll find yourself at "Second Life Registration: Select a Community", please click on "skip this step"
4. Choose your avatar name. As for the last names you will have to choose between a predefined list of last names. Enter your birth date. Enter your email address.
5. Choose how you want to look like, your avatar.
6. Enter your personal data
7. Click on 'skip this step' when asked for a premium account
8. You will receive a confirmation by email which says 'Welcome yourname'
9. On the message you received you will find a link to activate your account and a link to download the Second Life software.
10. Click on the link to activate your account. Click on 'Download and install the Second Life Client'
11. On your desktop click on the 'Second Life' icon to install the software. Follow the instructions to install the software.
12. Click on the SL Icon and connect with your name and password.
13. Click on "I agree with the terms of licence".
14. Continue.
15. You will find yourself (and see yourself from the back) in the Second Life training center.
16. Go to file and choose quit
17. Go back on the internet to <http://tinyurl.com/6hqj84>
18. Click on "teleport now"
19. You are now at The Tech
20. (If you want to change your look : by clicking on the right button you can customize your avatar by choosing "appearance" on the wheel.)

---

<sup>1</sup> An **avatar** is a computer user's representation of himself or herself, in the form of a three-dimensional model.
