

Template for Research Fellowships in Digital Leadership

Fellows:

The 10 Fellows selected for this programme should be English-speaking CEOs or directors/senior managers of large museums who have a current *digitilisation* project in preparation. Projects should be at a certain scale, be feasible and approved/supported, at an early stage of development and capable of change and evolution.

Projects:

Digitisation, basic collection/conservation work, or setting up a website or digital platform is not the aim of this programme. Rather we are looking for higher level, integrated and strategic projects that lead to digital transformation, and which make an overall impact on the infrastructure of the institution.

Proposals:

The proposal in the application should include:

- Overview of the museum and the project
- Role of the Fellow in relation to the project
- The professional development goals of the Fellow
- The aims and objectives of the proposed work
- A schedule and timeline
- The outputs and outcomes of the project including its impact on the museum as a whole
- The value of the project for the individual, the museum and the region
- How the project aligns with the aims of the programme ie digital *transformation* and digital *maturity*.
