Dear colleagues,

Join us for the **Livingstone Museum – Farmers Collaborative Workshop** on local knowledge and climate change adaptation.

Building on 2024 research in Simonga Village, this hybrid workshop brings together farmers, community stakeholders, and experts to explore traditional agricultural knowledge as a nature-based solution to climate change. We aim to document local practices, discuss adaptation challenges, and foster genuine partnerships that position communities as co-authors of their own heritage. As part of the ICOM SAREC Special Project 2026, the workshop is open to museum professionals and local communities to join the discussion.

Event Details:

- **Date:** Tuesday, 30 June 2026
- **Time:** 09h00–11h00 (UTC+2)
- **Format:** Hybrid (In-person at Livingstone Museum and online livestream)
- **Registration:**
